Function features

- Appearance design: fine lines, magnificence surface. Antique copper shows a sense of subtle rather than obvious, bewitching rather than forthright. Anti que brass symbolizes lasting and noble. Yellow bronze means low-key and luxury, and classical gold demonstrate splendid and wealthy.
- Touching: The whole design is based on ergonomics, give you a comfortable touch.
- Lock body: can open and close for more than 200,000 times use in normal way.
- Lock cylinder and keys all use high quality yellow bronze material, using 6 marbles beads structure to low its re-opening rates.
- Electro-plating technology: Use Italy electric-plating technology, 7 layer electro -plating to enhance its corrosion ability.
